### Brass sand cast by artisans

Jolie architectural hardware, handmade by artisans is made from solid brass and cast entirely by hand using a 1000-year-old sand casting method. Each product is unique, with its own charm, character and finish. Always with the J emblem, our badge of excellence.

## JOLIE products

Jolie embodies charm, elegance, ambiance and character for your door, window, kitchen, furniture and bathroom. Architects and designers turn to Jolie's architectural hardware to create an exclusive look for each house, villa, mansion, apartment, hotel or any other project.

'the brand is just fantastic,  
that is really what I think ...!'

J

### Our collection by JOLIE Design

Jolie works with its own vision of architectural hardware, handmade by artisans. Jolie designs durable, timeless, clean and sleek shapes combined with functionality and, above all, 'character and charm'. Designing is an ongoing process of developing, drawing and modelling for Jolie, in which we collaborate with architects and designers. Our in-house design firm guarantees many new visions for the future!

'knobs and handles  
must be complementary,  
not dominant ...!'

◆ Our collection by  
Roel Vandebek

"As a designer, I always want to be engaged with my client's philosophy. When I met Jolie, I immediately felt right. That is because Jolie is unique. The way they sand-cast brass and then give it their specific finish, that's a level of excellence. Stylish creations, durable, 'timeless' and with a lot of charm too. This fits my designs for Jolie perfectly, they really align, with the right proportions, practical, but also perspective, value, emotion and character."  
Roel's vision, discover his designs!

### FINISHING

The surface of our JOLIE® design represents a unique combination of a natural aspect with architectural shape. Result of time honoured manufacturing plus hand finishing by artisans.

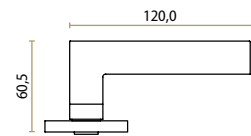

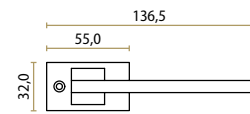

'I want you to go inside  
and shut the door, right now ...!'

### Irresistible misfit

Sphere (Jolie design) can be considered 'an irresistible misfit' in the Jolie collection. Instead of the characteristic sleek and clean Jolie lines, the Sphere sees our artisans cast an anvil-shaped cabinet knob.

The Sphere, in its two sizes of 40 mm and 62 mm, has been used in many (kitchen) interiors and is a popular design in the Jolie collection.

Sphere is available in Aged Gold, Aged Bronze, Old Silver and Black finishing.

'handcrafted by artisans ...!'

'see me ...  
touch me ...  
feel me ... !'

### service

the Jolie production- and warehouse team inspects all the artisanal brass products with great care, before they are individually packed and dispatched worldwide.

### cleaning

we recommend that our brass products are cleaned with the use of a soft, either dry or wet, cloth only.
