HOUSE OF ROHL

THE STORY CRAFT TELLS

Shaws is a member of the House of Rohl, a collection of artisan brands recognised for their artistry and heritage.

The Rohl family have spent a lifetime seeking stories of dedication, passion and craft. They have brought together diverse brands, exceptional in their category, that complement each other. Independent spirits, but shared values. A belief that quality starts with the material, design is in the detail and craftsmanship is paramount.

Distinctive stories are what makes life exceptional. At the House of Rohl, we discover time-honoured craft, revealing stories unlike any other. Stories of place and provenance. Stories of ingenuity and invention. Stories of a relentless pursuit of perfection.

Welcome to the House of Rohl®

When Shaws of Darwen was founded in the closing years of the 19th century, we had a vision – to make the finest handcrafted fireclay sinks in the whole of England.

Today, some 120 years on, that vision has been more than realised; Shaws now enjoys, not only a national, but a worldwide reputation for the beauty, quality, craftsmanship and sheer practicality of our unique artisan products.

We're immensely proud of our heritage, and the fact that our sinks are still handcrafted at our premises in the same quiet corner of North West England as they were when we first started out on Valentine's Day 1897. We're also extremely proud that the techniques lovingly used by our time-served craftsmen haven't changed in all those years.

So much so, every handmade Shaws sink carries an impression on its base of the name of the master craftsman who created it. This, along with our Certificate of Authenticity, is your assurance that your investment has been handcrafted for life.

Every Shaws sink
bears the name of the
master craftsman who
created it, by hand.

M. ARMSTRONG

OUR PROCESS

Handcrafted for Life

Iconic, timeless,
aspirational and
tactile, each sink is
an original design,
handcrafted to give
a lifetime of service
and pleasure.

At Shaws we don't believe in mass production; we believe in quality, individuality and authenticity in all we do. It takes time to hand-make Shaws sinks, between three to four weeks in total, using time-honoured techniques that have been passed down from master craftsman to apprentice for well over a century.

Known as 'slip casting', the process begins with a mixture of locally sourced clay and water being poured into porous moulds – by hand, naturally.

When the newly formed sinks are dry enough, craftsmen remove them from their moulds before getting to work doing what they do best – expertly hand-finishing these artisan products through a process of sponging and 'fettling' to create a smooth surface.

It's at this stage that the master craftsman proudly imprints his name on the base of his creation, before leaving the sink to gradually dry out for a period of over 40 hours. Only then are the sinks deemed ready to be prepared with a first coat of glaze, before being glazed for a second time to improve the feel and durability of the product. Firing in specially designed kilns at temperatures of over 1200 degrees Celsius completes this rigorous process.

OUR BELIEFS

Pride & Passion

First and foremost, Shaws is a company that believes wholeheartedly in delivering on our promise:

To make the most beautiful, practical, handcrafted fireclay sinks in the world.

We believe in being authentic in all we do, using traditional, time-honoured techniques to produce iconic products that grace the finest establishments and homes the world over.

We believe that our reputation for delivering quality and reliability is as important as producing timeless and elegant design pieces; that's why every Shaws sink comes with a lifetime guarantee.

We believe that every sink that bears the Shaws name should be a thing of beauty, a unique creation, with a charm and character all of its own, bearing testament to the skill and expertise of the master craftsman who lovingly and painstakingly created it.

Our heritage is reflected in the names we give our products today. These are carefully selected as a tribute to the local communities and villages that provide homes for our craftsmen and their families.

THE
– ORIGINAL –
COLLECTION

With its inspired design and timeless appeal, a sink from our Original Collection makes the perfect, iconic focal point for any traditional styled kitchen.

But more than that, like all Shaws products, these artisan fireclay sinks, with their original designs and details, are handcrafted. What's more, we still use age-old techniques, making them look and feel truly beautiful.

THE – ORIGINAL – COLLECTION

Traditional, beautiful and practical, the Original Collection represents our premium offering, designed to provide you with a sink of substance, created to add authenticity, charm and character to your room.

Fits: Butler 1000.

All our sinks are
glazed by hand **twice**
to give a luxurious,
durable finish.

All Shaws fireclay products *are handcrafted for life.*

CARING FOR YOUR SHAWS SINK

Shaws sinks are proven to be incredibly durable and long-lasting. To keep your investment looking at its best, we recommend it be cleaned daily using a soft sponge or cloth and a non-abrasive cleaning product – a simple solution of soap and water generally does an excellent job.

Although extremely hardwearing (being heatproof, and resistant to impact, chemicals, dirt & stain and odours) not even a Shaws fireclay sink is impervious to damage.

So, if a metal pan or cutlery marks the surface of your pride and joy, we have a range of accessories that will easily restore it to its original beauty.

Our Warranty

At Shaws our promise to you is to provide the best sinks in the world, backed up with outstanding personal customer service.

That's why all our products are not only of exceptional quality, but carry comprehensive warranties to give you total peace-of-mind.

All Shaws sinks carry a **Lifetime** Warranty

PLEASE NOTE, our sink dimensions can vary by a plus or minus of 2%, as they are hand-made and shrink during firing. We therefore recommend that your kitchen fitter is aware of this and that no work surfaces or cabinets are cut before measuring your sink. Due to the handcrafted nature and weight of our sinks, we also recommend a specialist kitchen fitter installs your sink and that it is properly supported.

Please see website for warranty details of our sinks, taps and accessories.
